

MUHAMMAD MUNEEB

Email: muneebdev18@gmail.com

Contact: 0306-2953623

Career Objective:

I aim to join a dynamic organization that offers ample opportunities for skill development and growth as a developer. I am eager to learn new technologies and refine my skills to contribute effectively to the organization success.

Academic Profile:

- **University Of Karachi UBIT (2022-2025)**
Bachelor of Software Engineering.
- **Govt Delhi College (2021)**
Passed Intermediate (Pre-Engineering)

Skills:

1. **Frontend/Backend technologies:**
HTML5, CSS3, Javascript(ES6+),
React Js, Node Js, Tailwind CSS,
Bootstrap, ReactStrap, Express.js
2. **Mobile Application Development:**
React Native (Hybrid Mobile Application
Development)
3. **Database:**
MongoDB ,Firebase.
4. **State Management & Tools:**
Redux & Redux Toolkit, React Context API, Git.

Professional Experience:

- **Feb 2025 – Present:** Working as a Freelancer
React Js/MERN Developer .
- **July 2023 – Jan 2025:**
Working as a Frontend React Developer in
Sybrid Pvt Ltd (Canvas Digital).
- **Jan 2023 – June 2023 :** Worked as a React Js
Internee in Sybrid Pvt Ltd (Canvas Digital).

Projects:

• ELITE CARE (Skin Care WebApp):

Elite Care offers a responsive UI that adapts to all devices, with a Contact Us section, easy appointment scheduling, and over 10 pages of information. It includes an admin panel for managing appointments, blogs, and doctors. The backend uses Node.js, Express, and Mongo DB for API functionality.

• Catholic Grapevine (Freelancers Web Platform):

Catholic Grapevine is my project, custom-built using the MERN stack. It is designed to connect freelancers with clients seamlessly. The platform specializes in finding the right opportunities for freelancers and matching them with suitable clients, ensuring mutual success and satisfaction.

• The Split (Admin Dashboard):

I developed a robust admin panel for a property mobile app, enabling admins to efficiently add, view, update, and delete properties. The panel includes a notification system, user and admin management, and a profile update feature, ensuring smooth property management and seamless operations.

• Adams (Mobile Application)

Developed a feature-rich social media application similar to Instagram using React Native. Implemented API integration to enable functionalities like user authentication, post management, and real-time updates, ensuring a seamless and engaging user experience

Academic Achievements:

- **CGPA:** 3.1
University Of Karachi (UBIT).
- **Higher Secondary Certificate (HSC):** 94.27%
Govt Delhi College
